THE NATURE OF THINGS

1726 NOME STREET APT B-2 BALTIMORE, MARYLAND 21224-6321 DAVID SCHULZE DESIGNER

*We are
only beginning to
understand a
simple
understanding of
Wolves. These
secrets remain
hidden under veils
of
misunderstanding.
The Wolf stare
looks right
through you, as if
into your soul.
Deep within the
innermost beings
of all, lies a
place where songs
of Wolves carry
on a whistling
wind. Wolves call
us to the
Wilderness, and
what will be our
answer?*

1726 Nome Street Apt. B-2
Baltimore, Maryland 21224-6321

Dear Greg Sanders,

It has come to our attention at (The Nature of Things) that there is some pressure by the Shell Fishing lobby to have the area Sea Otters relocated into new areas other than the Santa Barbara and Monterey areas. We also know that this relocation effort is not working. FWS must ensure the protection of the vulnerable southern sea otter population in the event of natural or man-made catastrophe, disease or offshore oil spill.

We need this keystone otter population left right where they are! We can't exchange sea otters for shellfish. On behalf of the Sea Otter recovery plan, please come up with a more viable alternative that promotes otter conservation, not extinction!

Yours Truly,

David P. Schulze
Ted Schulze
